

REEM KHALID ALQARNI

Information Technology Graduate | Software & Web Developer

Taif, Saudi Arabia | +966 55 837 6183 | reemkhalid01it@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Information Technology graduate from Taif University with hands-on experience across full-stack web and mobile development. Comfortable working front-end to back-end — building interfaces, designing relational databases, and integrating APIs — demonstrated through a Flutter/Firebase capstone application and ongoing full-stack training at Smart Methods. Looking for an entry-level Software Developer / Web Developer role to keep building on real products.

EDUCATION

Bachelor of Information Technology — Taif University

2020 – 2026

Overall grade: Very Good. Coursework: Data Structures, Algorithms, Database Systems, Software Engineering, Web Development. Graduated with a full-stack mobile capstone project.

EXPERIENCE & TRAINING

Full-Stack Software Development Trainee — Smart Methods

2026

- Training across web and mobile development, applying front-end, back-end, and database skills to real products alongside a professional engineering team.
- Completed structured internship tracks (420 hrs each, IEEE-authenticated) spanning full-stack web development, DevOps/Git collaborative workflows, and Linux fundamentals.

KEY PROJECTS

Smart App (Capstone Project) — Flutter · Dart · Firebase · Gemini AI · Google Maps API

- Designed the relational database and built the front-end screens and UX flow for a cross-platform mobile app combining AI-assisted guidance, live GPS mapping, and safety alerts.
- Delivered 16/16 planned features across 8 Agile sprints in a 7-person team, reaching an 87.5% UAT pass rate; also built the Arabic-first, RTL interface.

Student Records Web App — PHP · MySQL · JavaScript

- Built a full-stack web app for managing student records, using AJAX for dynamic status updates and prepared statements to prevent SQL injection.

SKILLS

Practical: Web Development (HTML/CSS, JavaScript, PHP) · Mobile Development (Flutter/Dart) · Database Design & SQL · Firebase · API Integration · Git/GitHub

Foundational: C++ · Power BI · Microsoft Azure fundamentals (AZ-900 in progress) · Figma

CERTIFICATIONS & ACTIVITIES

- Full Stack Robotics Engineer & Web Development/NLP tracks, DevOps Fundamentals (Git) — Smart Methods, 420 hrs each, IEEE-authenticated
- Fundamentals of Programming & Web Development, Fundamentals of Database Management — Technical & Vocational Training Corporation (TVTC)
- Google Developer Group (GDG) On Campus — Core Team Member, Taif University (2025–2026): co-organized hackathons and technical workshops
- Programming & AI Club Member, Taif University (2024–2026): technical workshops and collaborative coding challenges
